Welcome to the 1st issue of our Epsilon project newsletter! Epsilon works to improve the lives of LGBT refugees, migrants and asylum seekers, whom research has identified as one of the most vulnerable groups in modern Europe. Epsilon e-newsletter, circulated quarterly will present the project’s latest findings, tools and courses as well as opportunities for involvement and collaboration.

Funded under Erasmus+ and delivered by a pan-European consortium, Epsilon is a unique LGBT-led project that aims to develop a set of highly innovative educational tools and training courses (face to face and online) informed by the real needs of LGBT migrants and refugees addressing issues of dignity, respect, inclusion and discrimination.
